(An Amazing Jeff Bezos Story)

Not out on **amazon** books today!

Meet Jeff! Jeff likes books!

... maybe this is the one he liked best...

... but now he likes rockets even better...

... and us, his customers...

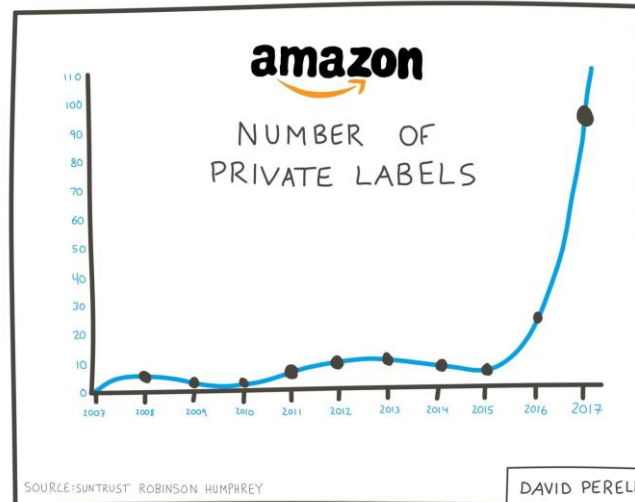

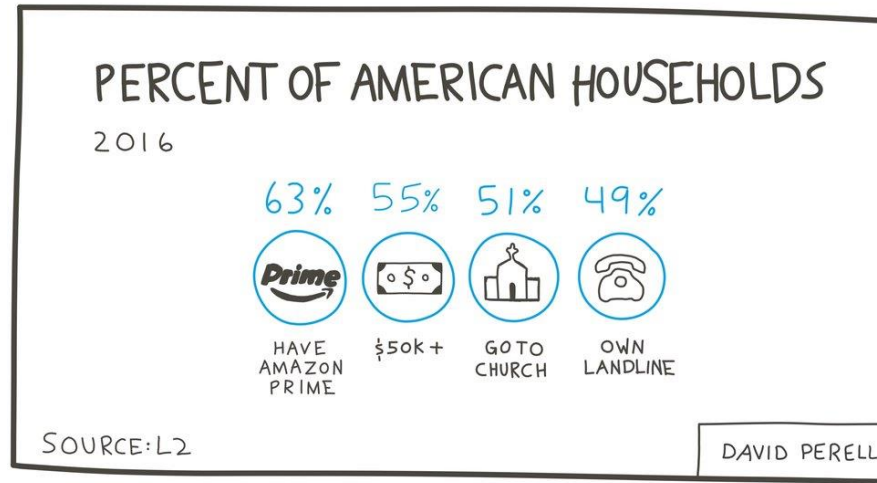

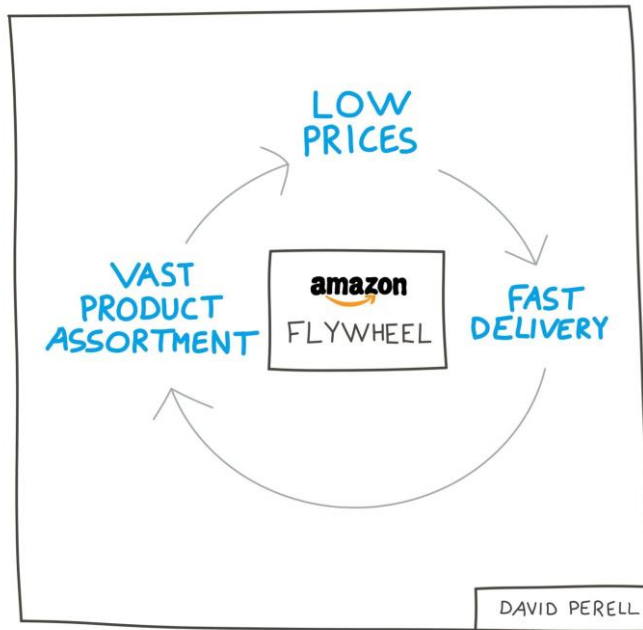

**"The No. 1 thing that has made us successful by far is obsessive compulsive focus on the customer"**

**Jeff Bezos - Amazon Founder & CEO**

# ... and we like what Jeff got....

If you're an investor you like Jeff a lot!

...but he does not have as much money as Elon, his mortal, spacefaring enemy... 😞  
, but we don't have as much money as Jeff... and he doesn't share it... 😞

... even if that means, some of us have less...

... but maybe we don't like Jeff anymore...

Digital stuff wants to be expensive,  
but it also wants to be free bored

# A look at *blockchain technology*

## What is it?

The **blockchain** is a decentralized ledger of all transactions across a peer-to-peer network. Using this technology, participants can confirm transactions without the need for a central certifying authority. Potential applications include fund transfers, settling trades, voting, and many other uses.

## How it works:

# The New Networks

## Centralized

Centralized systems have a core authority that **dictates the truth** to the other participants in the network.

Only **privileged users** or institutions can access the history of transactions or confirm new transactions.

## Decentralized

Decentralized systems have **no core authority** to dictate the truth to other participants in the network.

**Every participant** in the network can access the history of transactions or confirm new transactions.
