create content that either refers to the course in some way and/or current digital media and technology

find a balance between formal/informal/academic by keeping your audience in mind
- **Keep it Short and Simple, KISS Principle:**
also known as “Keep it simple, stupid”ツ; don’t over do it
- **If you have any questions:**
see if you can find the answer on the site or ask either Janessa, Walter or Angus (preferably via TEAMS)
